Computer Network

Projects

Youtube Clone | *React, RapidAPI, Youtube API, Tailwind CSS*   June 2023 - July 2023

Worked on a Youtube clone web application using React for the frontend.

Utilized the RapidAPI platform and Youtube API to fetch and display Youtube videos and related data.

Styled the application using Tailwind CSS to create a modern and responsive user interface.

Implemented features like video search, video playback, and user interactions similar to Youtube.

Planning to add user authentication and user-specific features in the future.
